

Church Life

Welcome to the West Covina Hills SDA Church Family!

We pray you will hear God speak to you through various ways and through His people. If you don't have a church home we would love to have you consider making us your church home. **Guests and members please share with us your presence and any other information on the Communication Card in the pews and place them in the offering plate, thank you!**

We also have wireless services for the hearing impaired.

Please see a Deacon for assistance.

THEME OF WORSHIP

Finish the Work Mission Statement

In His great love, Christ surrendered Himself for us. He gave Himself for us to meet the necessities of the striving, struggling soul. We are to surrender ourselves to Him. When this surrender is entire, Christ can finish the work He began for us by the surrender of Himself. Then He can bring to us complete restoration. — {OFC 236.7}

Finish The Work Ministries is comprised of a group of students and professionals who support the SDA Church. We are the Revival and Evangelistic arm for the ASI (Adventist Service and Laymen Industries) Pacific Union Conference. The ministry seeks to use the Medical Missionary Work to make Christianity practical in life, both in words and action.

HEALING

Boost Your Flu IQ

Like clockwork, the flu virus shows up each October, making millions of people miserable until it loses steam sometime in May. Symptoms of flu—which include fever, cough, sore throat, a runny or stuffy nose, muscle aches, headaches and fatigue—aren’t just annoying. They can be downright serious. So what can you do to beat the flu?

2. **Dry Your Hands.** You already know that frequent hand-washing is crucial during flu season. But drying them properly is just as important. Damp hands easily transmit infection-causing microbes to surfaces others may touch. Several recent studies have reported that hand dryers can blow virus particles back into the air, so opt for paper towels if you have a choice. But dryer-spread droplets don’t linger in the air for long, so the likelihood of getting infected is low. “If people have washed their hands with soap and water, they’re not going to have a lot of viruses or other particles on their hands for a dryer to blow all over the place,” says Aaron Glatt, M.D.
3. **Stop Touching Your Face.** . . .
